RECOMMENDED BLOGS

What's a blog?

A blog is a short form for a Web log or online journal. The host of a blog will usually post a statement or short essay about a topic and invite responses from visitors to the blog site. A blog is usually a public conversation in which previous comments from the beginning of the conversation can be viewed. In some cases earlier comments are archived so that only each day's comments are posted on the face page of the blog site.

You may think a blog hosted by a Christian for response by other Christians would be Christ centered and would be a published demonstration of the fruits of the Spirit. This however is not always the case. Some blogs allow venting of strongly (and often wrongly) held opinions. Blogs about theological opinions can sometimes contain comments bordering on sarcasm and bitter denunciation. Some of these blogs should contain a warning that even though topics about Christianity are being discussed some participants may not state their opinions in a very Christ like manner.

Yet blogs have a very important role within our post Christian society. They help many to articulate their thoughts about a current topic or event. Often blogs are the best means for some to have their views read by a wide audience. They also are an avenue for many who have never given much thought to a theological viewpoint to have their minds open to a much wider and divergent spectrum of ideas about the issue. Perhaps most importantly they are likely the best venues for the debate and sharpening of Christian apologetics. Christians who have a solid grasp of the truth of the Word of God should express their views openly on blog sites that have a wide audience. The blog sites listed below offer opportunities for Christians to become a vital voice in the conversation.
